

## Presentation/ Webinar Proposal

### Accelerate Your Company's Growth under Control For Better Business and a Brighter Future

#### Abstract

Leaders of small and mid-sized companies frequently feel stressed about their company's growth and progress. They might experience increasing competitive pressure, think that their company is moving too slowly, or feel that they're spinning out of control.

The presenter will:

- Explain why accelerating under control is less risky than accepting the status quo
- Introduce the 5 keys to accelerating under control
- How four of the keys free up time for the fifth
- Describe a simple method that identifies priorities for short-term action

The presentation takes 30-50 minutes including Q&A. For more about accelerating under control, go to <https://www.skiba-associates.com/blog/categories/accelerate>.

#### About the Presenter

Zbig Skiba is the President and Founder of Skiba Associates, which enables companies to scale up under control. We focus on companies in cleantech & climate tech, services, and information technology. Our services include planning, process improvement, team alignment, and coaching.

Zbig brings over 25 years in leadership, facilitation, and coaching as well as a breadth of industry knowledge to his work. Zbig has an MBA from Kellogg in entrepreneurship and a degree in industrial engineering from UIC. Zbig has led CEO peer groups and is a certified facilitator and coach.
